The Office of West Virginia State Treasurer John D. Perdue

Comprehensive Annual Financial Report Fiscal Year Ended June 30, 2016

State of West Virginia Office of the State Treasurer West Virginia College Prepaid Tuition and Savings Program

A Program of the State of West Virginia

Comprehensive Annual Financial Report

For the Fiscal Year Ended June 30, 2016

John D. Perdue

State Treasurer

Tazuer Smith

Deputy Treasurer West Virginia College Prepaid Tuition and Savings Program

David S. Thomas, CPA

Financial Director
West Virginia College Prepaid Tuition and Savings Program

Prepared by the Office of the Financial Director

The mission of the Prepaid College Plan is to offer a simple, convenient, safe and efficient college savings program that will:

- Make a college education more accessible and affordable to more West Virginians
- Encourage more families to save ahead for the costs of college
- Promote attendance at West Virginia's public and private institutions of higher learning
- Establish college attendance as the norm for more of West Virginia's youth
- Express the quality, user-friendliness, professionalism and innovation inherent in the Treasurer's Office.

JOHN D. PERDUE STATE TREASURER JOSH STOWERS
ASSISTANT STATE TREASURER

The Honorable Members of the Legislature
The Members of the Board of Trustees of the
West Virginia College Prepaid Tuition and Savings Program
The Prepaid Tuition Plan Contract Holders
The Savings Plan Participants
Citizens of West Virginia:

I am pleased to provide you with the Comprehensive Annual Financial Report (the "CAFR") of the West Virginia College Prepaid Tuition and Savings Program for the year ended June 30, 2016. The financial statements contained herein have been audited by an independent certified public accounting firm.

The CAFR exemplifies the Office of the State Treasurer's commitment to financial accountability and adheres to nationally recognized standards. The Program is committed to providing a safe and secure means for making college costs affordable. The CAFR is designed to provide the reader with clear, concise and complete financial data.

This report is made possible through the efforts of many people throughout the Treasurer's Office dedicated to providing reliable and credible financial information in conformity with accounting principles generally accepted in the United States. Their commitment and dedication to national reporting standards have resulted in the Program's achievement of a high level of financial accountability.

Sincerely,

John D. Perdue

November 10, 2016

Honorable John D. Perdue, State Treasurer Office of the State Treasurer

Honorable Members of the West Virginia Legislature

Board of Trustees West Virginia College Prepaid Tuition and Savings Program

Contract Holders of the Prepaid Tuition Plan

Participants in the Savings Plan

Citizens of West Virginia

Ladies and Gentlemen:

The Comprehensive Annual Financial Report ("CAFR") of the West Virginia College Prepaid Tuition and Savings Program (the "Program") for the year ended June 30, 2016, is hereby respectfully submitted. This report was prepared by the Office of the Financial Director of the Program. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with management of the Program. We believe the information, as presented, is accurate in all material respects, and that it is presented in a manner designed to fairly set forth the financial position of the enterprise funds and fiduciary fund of the Program and the respective changes in financial position and cash flows where applicable. All disclosures necessary to enable the reader to gain an understanding of the Program's financial activities have been included.

Management is responsible for establishing and maintaining internal control designed to ensure that the assets of the Program are protected from loss, theft or misuse and that the preparation of the financial statements is in conformity with accounting principles generally accepted in the United States of America. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived from it, and (2) the valuation

John D. Perdue, State Treasurer

of costs and benefits requires estimates and judgments by management. Management of the Program has established a comprehensive internal control framework that is designed to provide a reasonable basis for making representations concerning the finances of the Program. Because the cost of internal control should not outweigh its benefits, the Program's comprehensive framework of internal control has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Program's MD&A can be found immediately following the report of the independent auditors in the financial section of this report.

Actuarial Soundness Review

The Program's Prepaid Tuition Plan is required by Chapter 18, Article 30 of the West Virginia Code to have an annual actuarial soundness review performed by a qualified actuary. The firm Sherman Actuarial Services performed the review as of June 30, 2016. The report is available for public distribution and may be obtained from the Program.

Audit

The Program is required by Chapter 18, Article 30 of the West Virginia Code to have an annual audit by an independent certified public accounting firm. The firm of Gibbons & Kawash, A.C. performed the financial statement audit as of and for the fiscal year ended June 30, 2016, in accordance with auditing standards generally accepted in the United States of America. The auditors' report on the Program's financial statements is included in the financial section of this report.

Profile of the Program

The Program operates under the West Virginia State Code Chapter 18, Article 30, West Virginia College Prepaid Tuition and Savings Program Act. This Act was formerly known as the West Virginia Prepaid Tuition Trust Act until amended by the West Virginia Legislature on April 12, 2001. The State Treasurer under the direction of the nine-member West Virginia College Prepaid Tuition and Savings Program Board of Trustees (the "Board") administers the Program.

The purpose of the Program is to offer a Prepaid Tuition Trust Fund (the "Prepaid Tuition Plan") that provides individuals and organizations the opportunity to prepay tomorrow's college tuition and mandatory fees at West Virginia public and private colleges and universities, and to offer a Savings Plan Trust Fund (the "Savings Plan") that provides a means of saving to pay for the variety of costs of attending college.

The Program began operating its Prepaid Tuition Plan in July 1997 with the initial enrollment period commencing on October 1, 1998 and ending January 31, 1999. Approximately 9,730 Prepaid Tuition Plan contracts have been sold. The Savings Plan opened in March 2002. More than 177,000 Savings Plan accounts have been opened since inception through June 30, 2016.

As discussed in Note 10 in the Notes to Financial Statements, the West Virginia Legislature closed the Prepaid Tuition Plan to new enrollment effective March 8, 2003. Under State Code §18-30-6 (g), the Prepaid Tuition Plan will continue in existence, and closing the plan to new contracts shall not affect any contracts in effect on March 8, 2003. No Prepaid Tuition Plan contracts were sold in the year ended June 30, 2016. Also discussed in Note 10, the Board voted in fiscal year 2015 to close the Prepaid Tuition Plan on June 30, 2022. All funds remaining in the Prepaid Tuition Plan will be distributed to holders of accounts that are still open at that time.

The Program's Board selected Hartford Life Insurance Company ("Hartford Life") to provide records administration, cash management, and customer service for both plans, and investment management services for the Savings Plan. Both plans are known collectively as SMART529TM The College Savings Solution. The Program is an Internal Revenue Service Section 529 Qualified State Tuition Program. A more detailed description of the Program can be found in Note 1 in the Notes to Financial Statements in the financial section of this CAFR.

Revenues of the Prepaid Tuition Plan are recognized primarily from the present value of prepaid tuition contracts and from investment earnings. Expenses of the Prepaid Tuition Plan are for tuition contract benefits and for general and administrative operating activities. Additions to the Savings Plan come primarily from participant contributions and investment earnings; deductions are primarily the result of participant withdrawals and administrative expenses. Sources of revenue for operating the overall Program come from annual appropriations from the West Virginia State Legislature and from fees charged to Program participants.

As detailed in Note 2 in the Notes to Financial Statements, the Office of the State Treasurer includes appropriation requests for the Program in the State Treasurer's budgetary schedule that is submitted to the Secretary of the West Virginia Department of Administration each year. The schedule is subject to annual budget review and approval by the West Virginia State Legislature.

Budgetary control is maintained through legislative appropriation and the Executive Branch quarterly allotment process. Agencies submit budgetary requests to the State Department of Administration, which compiles the Executive Budget on behalf of the Governor, who submits it to the Legislature. After approval of the budget, the Department of Administration maintains control over the spending patterns of the state at the activity level and by use of the quarterly allotments. Annual appropriations are released for spending in quarterly installments or allotments. The State Auditor exercises control over spending at the annual appropriation level. All appropriations, except funds that are re-appropriated, expire 31 days after fiscal year end. All reappropriated funds are available, in the aggregate, on the first day of the fiscal year. The State's fiscal year is July 1 through June 30.

Financial Condition & Other Information

According to The College Board, published tuition and fees continue to rise for the 2016-17 academic year, and the rate of increase continues to exceed inflation. The College Board, which administers the Scholastic Aptitude Test (SAT) college entrance exam, is a national nonprofit membership association composed of more than 6,000 schools, colleges, universities, and other educational organizations. Between the academic years of 2015-16 and 2016-17, average published tuition and fees increased by 2.4% for in-state students in the public four-year sector. The increase is higher than the 1.0% increase in the Consumer Price Index between July 1, 2015 and June 30, 2016. The Prepaid Tuition Plan's weighted average benefit value for West Virginia public college and university tuition and fees for state residents increased 5.7% from academic year 2015-16 to 2016-17. By comparison, the previous weighted average benefit value increased 7.8% from academic year 2014-15 to 2015-16. In addition to the 2.4% increase nationwide for four-year public schools, in-state tuition at public two-year schools increased nationwide 2.3% from academic year 2015-16 to 2016-17. Total costs including tuition, fees, room and board increased 2.7% nationwide from academic year 2015-16 to 2016-17 for in-state students attending four-year public institutions, and 1.8% for in-state students attending two-year public institutions.

In the fall of 2015, approximately 54.7% of West Virginia high school students who graduated from a state high school the prior spring continued their education at an institution of higher education. This was a slight increase above the rate of 54.6% in the fall of 2014.

The weighted average tuition for West Virginia public college and university tuition and fees for state residents is \$3,329 per semester for the 2016-17 academic year, up from \$3,150 for the prior academic year. The actuarially determined tuition contract benefits liability is based on the weighted average tuition, current tuition value, estimated tuition growth, and the expected rate of return on investments. Current tuition value, which is the benefit paid to beneficiaries attending in-state private or out-of-state institutions, is \$3,627 per semester for the 2016-17 academic year, up from \$3,454 for the prior year. Tuition is assumed to grow 8.5% for the 2017-18 academic year and each year thereafter. An annual rate of return of 5.3% is assumed on Prepaid Tuition Plan investments for fiscal year 2017. Declining rates are assumed for each year thereafter through 2022 when the rate is assumed to be 2.3%. If any of those assumptions vary significantly from actual results, the liability will change accordingly as well as the net position deficiency. For example, if tuition growth for the next year is more than the assumed 8.5%, the tuition contract benefits liability will increase beyond actuarial expectations and the net position deficiency will increase accordingly. If the rate of return on investments is less than the assumed 5.3%, the liability will increase beyond actuarial expectations as well as the net position deficiency. In the same manner, if the tuition growth assumption exceeds actual growth or if the rate of return assumption is less than actual returns, the tuition contract benefits liability will decrease below actuarial expectations as well as the net position deficiency. See the MD&A in the financial section of this report for a more detailed discussion about actuarial assumptions.

The Prepaid Tuition Plan's investment portfolio had a total gain of 2.1% for the fiscal year ended June 30, 2016, a gain of 3.0% for the prior year and a gain of 13.7% for the year ended June 30, 2014. The Prepaid Tuition Plan's investment mix for most of the fiscal year was approximately

50% equity securities and 50% fixed income securities. The fiscal year was a mixed year for the Prepaid Tuition Plan's equity investments, with domestic stocks gaining 1.3% and international stocks losing 8.3%. The Prepaid Tuition Plan's fixed income investments gained 5.7%.

The Prepaid Tuition Plan has a net position deficiency – also referred to as an actuarial deficit or unfunded liability – of \$13.1 million at June 30, 2016. The deficiency was caused primarily by large investment losses, unexpected tuition increases in prior years, and changes in actuarial assumptions. The Prepaid Tuition Plan's financial condition is dependent on its investment earnings and adequate cash flows. As discussed in Note 10 in the Notes to the Financial Statements in the financial section of this report, steps have been taken to ensure financial stability, which includes closure of the plan to new enrollment and a pledge of funds from the State to support payment of benefits. Management believes the Prepaid Tuition Plan will have sufficient resources to meet its obligations as they become due.

The West Virginia Legislature established the Prepaid Tuition Escrow Account to be funded from the state's Unclaimed Property Trust Fund. The Escrow Account provides funding to support the deficit in the Prepaid Tuition Trust Fund, and the annual transfer is triggered by the actuarial unfunded liability at the end of the fiscal year. The Escrow Account is discussed further in Note 10 in the Notes to Financial Statements in the Financial Section of this report.

Approximately half of the Savings Plan's various investment options showed positive rates of return for the fiscal year, with a high of 7.6%. This was the twelfth year for the Savings Plan. Contributions to the Savings Plan were 8.1% less this fiscal year than last year. Net investment losses this year in the Savings Plan were \$26.1 million. There was a \$17.2 million net investment gain last fiscal year.

In January 2016, end-of-year individual account statements summarizing activity through December 31, 2015, were mailed to all Prepaid Tuition Plan and Savings Plan account owners.

A supplement was issued for The Hartford SMART529 College Savings Plan on September 18, 2015 regarding the removal of The Hartford Alternative Strategies Fun which was replaced with The Hartford Real Total Return Fund. In addition, the Hartford Capital Appreciation 529 Fund was removed as an Individual Fund Option.

The SMART529 Select Offering Statement was updated on September 25, 2015.

Cash Management

The West Virginia Investment Management Board, Hartford Life, and the Office of the State Treasurer manage the Prepaid Tuition Plan's cash and cash equivalents. Hartford Life and the Office of the State Treasurer manage the Savings Plan cash and cash equivalents.

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to the Program for its comprehensive annual financial report for the fiscal year ended June 30, 2015. This was the

sixteenth consecutive year that the Program has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The Program's success would not be possible without the support and leadership of the State Treasurer, the Legislature and the Program's Board of Trustees. Their commitment and dedication to providing an affordable higher education has provided the Program with a blueprint for success. The Program's staff, Hartford Life, and the staff of the Office of the State Treasurer provided diligent and dedicated service in building the Program and establishing it as the national model of achievement that it is today. The preparation of this report was accomplished only through the many hours and long days of work generously given by Program staff and the many hardworking individuals at Hartford Life who are essential for the success of this program.

Respectfully, I hereby submit the Comprehensive Annual Financial Report of the West Virginia College Prepaid Tuition and Savings Program for the year ended June 30, 2016.

Sincerely,

David S. Thomas, CPA

INDEPENDENT AUDITOR'S REPORT

To the West Virginia College Prepaid Tuition and Savings Program Charleston, West Virginia

We have audited the accompanying financial statements of the business type activities of the enterprise funds and the fiduciary fund of the West Virginia College Prepaid Tuition and Savings Program (the Program), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Program's basic financial statements as listed in the table of contents. We did not audit the financial statements of the West Virginia College Prepaid Tuition and Savings Program Savings Plan Trust Fund (the Savings Plan Trust Fund), which represent 100% of the statement of fiduciary net position and the statement of changes in fiduciary net position.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of the Savings Plan Trust Fund, which represents 100% of the statement of fiduciary net position and the statement of changes in fiduciary net position. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Savings Plan Trust Fund, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the enterprise funds and the fiduciary fund of the Program, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis-of-Matters

As discussed in Notes 3 and 11 to the financial statements, the Program adopted GASB Statement No. 72, *Fair Value Measurement and Application* for the year ended June 30, 2016. This statement requires the expanded disclosure of input levels to fair value measurement of the Program's carrying value of investments at June 30, 2016. Our opinion is not modified with respect to this matter.

Additionally, as discussed in Note 10 to the financial statements, the Board of the Program voted to close the Prepaid Tuition Plan portion of the Program on June 30, 2022. Management's plans concerning this matter are also discussed in Note 10. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 23 through 29, the Schedule of the Program's Proportionate Share of the Net Pension Liability and Schedule of the Program's Contributions to the West Virginia Public Employees Retirement System on pages 69 through 72 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Program's basic financial statements. The introductory section, the supplemental information included in the financial section, and the statistical section as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory section, the supplemental information included in the financial section, and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

West Virginia College Prepaid Tuition and Savings Program Management's Discussion and Analysis

June 30, 2016

As management of the West Virginia College Prepaid Tuition and Savings Program (the "Program"), we offer readers of the financial statements of the Program this discussion and analysis of the Program's financial performance for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented in this section in conjunction with the Program's financial statements, including notes to the financial statements, which follow this section.

Financial Highlights

Total net position of the Program's two enterprise funds decreased \$564,422 for the fiscal year ended June 30, 2016. The actuarially funded ratio of the Prepaid Tuition Trust Fund, which is the primary enterprise fund for investing assets and paying benefits, was 81.5%. The actuarially funded ratio represents the ability of assets to fund liabilities and is calculated by dividing assets by liabilities. The ratio was 85.0% for the fiscal year ended June 30, 2015. The decrease in net position of the Prepaid Tuition Trust Fund was driven by less than expected investment returns.

The investment portfolio of the Program's enterprise funds had a 2.1% gain for the fiscal year, which followed on the heels of a 3.0% gain for the prior year and a 13.7% gain for the fiscal year ended June 30, 2014.

Net position of the Program's fiduciary fund decreased \$32,292,243 for the fiscal year ended June 30, 2016. The decrease was driven by a \$26,135,145 net investment loss. Net position of the fiduciary fund represents funds held in trust for individual investors, and, as such, is not available to support operations of the enterprise funds.

Overview of the Financial Statements

This report presents the operating results and financial status of the Program, which is composed of two enterprise funds and a fiduciary fund. The enterprise funds are the Prepaid Tuition Trust Fund (the "Prepaid Tuition Plan") and the College Prepaid Tuition and Savings Program Administrative Account (the "Administrative Account"). The enterprise funds' financial statements are reported using the economic resources measurement focus and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP") for governmental entities. The Program's Savings Plan Trust Fund (the "Savings Plan"), is a fiduciary fund (private-purpose trust fund) and also is reported using the accrual basis of accounting in accordance with GAAP.

The State of West Virginia reports the combined Prepaid Tuition Plan and Administrative Account as enterprise funds of the Program and the Savings Plan as a fiduciary fund (private-purpose trust

fund) of the Program in its Comprehensive Annual Financial Report ("CAFR"). Enterprise fund reporting is used to report the functions of a governmental entity with business-type activities in which a fee is charged to external users for goods or services. Fiduciary fund reporting is used to account for resources held for the benefit of parties outside the governmental entity, and those resources are not available to support operations of that entity.

The Statement of Net (Deficit) Position presents information on the enterprise funds' assets and liabilities, with the difference between the two reported as either net position or net deficit. This statement is categorized into current and non-current assets and liabilities. For purposes of the financial statements, current assets and liabilities are those assets and liabilities with immediate liquidity or which are collectible or becoming due within 12 months of the statement's date. The plan's net (deficit) position also represents the actuarially funded level of the plan, and, over time, increases or decreases in net (deficit) position may serve as a useful indicator of whether the plan's funded level or financial position is improving or deteriorating.

The Statement of Revenues, Expenses and Changes in Net (Deficit) Position reflects the operating and non-operating revenues and expenses of the enterprise funds for the operating year. Operating revenues primarily consist of tuition contracts with major sources of operating expenses being tuition contract benefits and expenses and general and administrative expenses. Nonoperating revenues primarily consist of investment earnings/losses and appropriations from the State, which is the primary government.

The Statement of Cash Flows is presented on the direct method of reporting, which reflects the enterprise funds' cash flows from operating, noncapital financing, and investing activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash and cash equivalents for the year.

The Statement of Fiduciary Net Position presents information on the fiduciary fund's assets and liabilities, with the difference between the two reported as net position held in trust for individuals or organizations.

The Statement of Changes in Fiduciary Net Position reports the additions and deductions to the fiduciary fund for the year. Additions are composed of contributions by investors in the Savings Plan and net investment earnings. Deductions represent redemptions by investors and operating expenses of the fund.

Financial Analysis of the Prepaid Tuition Plan and Administrative Account

Net (deficit) position. The following are combined, condensed Statements of Net (Deficit) Position of the enterprise funds, which are the Prepaid Tuition Plan and the Administrative Account, as of June 30, 2016 and 2015.

| | 2016 | 2015 |
|--------------------------------|-----------------|-----------------|
| Current assets | \$ 5,050,014 | \$ 4,883,539 |
| Noncurrent assets | 55,034,496 | 66,623,016 |
| Total assets | 60,084,510 | 71,506,555 |
| Deferred outflows of resources | 104,649 | 38,263 |
| Current liabilities | 16,469,098 | 16,819,031 |

| Net position (deficit): | | |
| Restricted | 1,528,119 | 1,283,210 |
| Unrestricted | (13,071,484) | (12,262,153) |
| Total net deficit | \$ (11,543,365) | \$ (10,978,943) |

The net deficit increased 5.1%, or \$564,422. Net position is the excess of total assets and deferred outflows of resources over total liabilities and deferred inflows of resources, and a net deficit occurs when liabilities and deferred inflows exceed assets and deferred outflows. While the actuarially funded status (assets and deferred outflows divided by liabilities and deferred inflows) of total enterprise funds was 83.9% at June 30, 2016 and 86.8% at June 30, 2015, the funded status of the Prepaid Tuition Plan at June 30, 2016 and 2015, was 81.5% and 85.0%, respectively. The actuarially funded status represents the Prepaid Tuition Plan's ability to fund payment of its liabilities as of the date on which the value of the assets and liabilities are measured. Actuarial funding ratios above 100.0% provide financial support during down times in the economy and lower earnings levels from the Prepaid Tuition Plan's investment portfolio, and during brief periods of unexpectedly high increases in tuition costs. As the funding ratio decreases, the funding soundness level increases.

Current assets represent cash and cash equivalents and short-term receivables. Noncurrent assets represent investments and long-term receivables. See Note 2 for a discussion of investments being reported as noncurrent assets. Deferred outflows of resources relate to pension amounts described in Note 7 during the current fiscal year. Current liabilities represent short-term payables for administrative expenses and contract benefits. Noncurrent liabilities represent long-term payables

for administrative expenses and contract benefits. Deferred inflows of resources relate to pension amounts described in Note 7 during the current fiscal year.

The increase in the net deficit was primarily the result of lower than expected investment returns and miscellaneous actuarial losses. Although the Prepaid Tuition Plan had an investment return of 2.1%, the actuarially projected return was 5.3%, resulting in an actuarial loss.

Changes in net (deficit) position. The following are condensed Statements of Revenues, Expenses and Changes in Net (Deficit) Position of the enterprise funds for the years ended June 30, 2016 and 2015.

| | Year Ended June 30, | | |
|---|---------------------|-----------------|--|
| | 2016 | 2015 | |
| Revenues | | | |
| Operating revenues: | | | |
| Tuition contracts (See Note 5) | \$ 103,404 | \$ 19,889 | |
| Savings Plan administrative fee | 1,284,497 | 1,329,262 | |
| | 1,387,901 | 1,349,151 | |
| Nonoperating revenues: | | | |
| Investment gain | 1,019,444 | 2,043,580 | |
| Appropriations from primary government | | 73,207 | |
| | 1,019,444 | 2,116,787 | |
| Total revenues | 2,407,345 | 3,465,938 | |
| Expenses | | | |
| Operating expenses: | | | |
| Tuition contract benefits and expenses (See Note 5) | 1,852,966 | 6,533,830 | |
| General and administrative expenses | 1,118,801 | 1,069,268 | |
| Total expenses | 2,971,767 | 7,603,098 | |
| Change in net position | (564,422) | (4,137,160) | |
| Net deficit at beginning of year | (10,978,943) | (6,841,783) | |
| Net deficit at end of year | \$ (11,543,365) | \$ (10,978,943) | |

Operating revenues for the Prepaid Tuition Plan reflect the interest effect of discounting future contract payments receivable and include an administrative fee received from the administrators of the Savings Plan and deposited into the Program's Administrative Account. As discussed in Note 10 to these financial statements, during fiscal year 2003 the West Virginia Legislature closed the Prepaid Tuition Plan to new enrollment. Because of the closure, no new prepaid tuition contracts were sold during fiscal years 2015 and 2016. Nonoperating revenues represent investment earnings, appropriations from the primary government, and payments made by the primary government for other postemployment benefits premiums on behalf of the Prepaid Tuition Plan. Investment gains for fiscal year 2016 were \$1,019,444 and the rate of return was 2.1%. For fiscal year 2015, the rate of return was 3.0%, resulting in an investment gain of \$2,043,580 for that year. The Prepaid Tuition Plan's finances are structured such that investment earnings are an

integral component of total revenues, and when the investment portfolio's performance is less than expected, net position can decrease significantly. Operating expenses represent prepaid tuition contract benefits and expenses and general and administrative expenses. Prepaid tuition contract benefits and expenses were \$1,852,966 and \$6,533,830 for 2016 and 2015, respectively. Prepaid tuition contract benefits and expenses are affected by actuarial factors such as the assumed rate of return and tuition growth, which are discussed in the Economic Factors section later in this discussion and analysis as well as in Note 5 to these financial statements. As noted on the previous page, lower than expected investment returns and miscellaneous actuarial losses increased the net deficit.

Financial Analysis of the Savings Plan

Net position. The following are condensed Statements of Fiduciary Net Position of the Savings Plan as of June 30, 2016 and 2015.

| | 2016 | 2015 |
|--------------|------------------|------------------|
| Assets | \$ 2,249,239,786 | \$ 2,268,418,824 |
| Liabilities | 16,699,057 | 3,585,852 |
| Net position | \$ 2,232,540,729 | \$ 2,264,832,972 |

Net position decreased 1.4% or \$32,292,243 during the current fiscal year. Net position is the excess of total assets over total liabilities. The decrease was driven by a net investment loss of \$26,135,145. The net investment loss was primarily the result of a \$136,309,184 unrealized net decrease in the fair value of investments, which surpassed the \$115,945,512 total realized net increase from dividends, capital gains and gains from sales of investments. Investment expenses of \$5,771,473 added to the excess of the unrealized decrease to create the net investment loss.

Investments make up 99.3% of total assets, and the remaining assets includes receivables for units and securities sold, and dividends receivable. Approximately 94.0% of liabilities consists of payables for securities purchased and units redeemed, and the remaining amount represents accrued fees.

Changes in net position. The following are condensed Statements of Changes in Fiduciary Net Position of the Savings Plan for the years ended June 30, 2016 and 2015.

| Year Er | ided . | June | 30. |
|---------|--------|------|-----|
|---------|--------|------|-----|

| | 2016 | 2015 |
|-----------------------------------|------------------|------------------|
| Additions | | |
| Contributions | \$ 187,384,693 | \$ 203,787,404 |
| Net investment gain (loss) | (26,135,145) | 17,187,375 |
| Total additions | 161,249,548 | 220,974,779 |
| Deductions | | |
| Redemptions | 187,295,938 | 181,828,669 |
| Administrative expenses | 6,245,853 | 6,401,168 |
| Total deductions | 193,541,791 | 188,229,837 |
| Increase in net position | (32,292,243) | 32,744,942 |
| Net position at beginning of year | 2,264,832,972 | 2,232,088,030 |
| Net position at end of year | \$ 2,232,540,729 | \$ 2,264,832,972 |

Contributions for the current fiscal year were down, decreasing 8.1% from those of the prior year. Redemptions increased 3.0% from the prior year. Overall investment performance was weak for the current fiscal year. Half of the various investment portfolios and funds that make up the Savings Plan had positive rates of return, ranging to a high of 7.6%, and half of the portfolios and funds had negative rates of return, ranging to a low of (18.6)%.

Administrative expenses for the Savings Plan represent charges related to investment management expenses; sales, marketing and distribution expenses; and other administration expenses.

Economic Factors

Prepaid Tuition Plan. The actuarial valuation of tuition contracts receivable and accrued contract benefits liability as of June 30, 2016 is based on various actuarial assumptions. A key assumption is average tuition inflation of 8.5% for school years 2017-18 through 2021-22, corresponding to the closure of the Prepaid Tuition Plan June 30, 2022.

The actual weighted average tuition for in-state, full-time students increased 5.7% from school years 2015-16 to 2016-17, and increased 7.8% from school years 2014-15 to 2015-16. Another key assumption is a 5.3% rate of return on Prepaid Tuition Plan investments for the upcoming fiscal year 2017, and declining returns each year to 2022 when the assumption is 2.3%. The plan's actual rate of return on its investments was 2.1% for fiscal year 2016 and 3.0% for 2015.

Long-term variances in the assumptions can affect the Prepaid Tuition Plan's financial position. Program management, together with actuarial and investing consultants and the Program's Board of Trustees (the "Board"), review the assumptions annually. Prepaid Tuition Plan management

and its advisors believe that the key assumptions, while subject to sudden and unexpected changes in the future, were reasonable for the fiscal years ended June 30, 2016 and 2015.

As discussed in Note 10 to these financial statements, during fiscal year 2003 the West Virginia Legislature closed the Prepaid Tuition Plan to new enrollment. No new contracts were sold in fiscal years 2015 and 2016. The Prepaid Tuition Plan will continue in existence to service existing contracts and no current contracts will be affected by the closure.

Also during fiscal year 2003, as discussed in Note 10 to these financial statements, the Legislature created the Prepaid Tuition Trust Escrow Account to guarantee payment of Prepaid Tuition Plan contracts. The Escrow Account will receive transfers of up to \$1,000,000 from the State Unclaimed Property Trust Fund each year there is an actuarially determined unfunded liability of the Prepaid Tuition Plan. If the Prepaid Tuition Plan is unable to pay current tuition benefits, funds may be withdrawn from the Escrow Account to meet those payments. At June 30, 2016, there was \$19,818,812 in the Escrow Account, which consisted of \$18,254,008 in total transfers from the Unclaimed Property Trust Fund and net investment gains of \$1,564,804. There was a \$1,000,000 transfer in fiscal year 2016 because of the actuarial unfunded liability at the end of fiscal year 2015. Because there is an actuarially determined unfunded liability of \$13,071,484 in the Prepaid Tuition Plan at June 30, 2016, \$1,000,000 is expected to be transferred from the Unclaimed Property Trust Fund to the Escrow Account on or before December 15, 2016, in accordance with the provisions enacted by the Legislature. While the Board controls the Escrow Account, funds in the Escrow Account are not assets of either the Prepaid Tuition Plan or the Program and accordingly are not included in the basic financial statements included herein. The Escrow Account is reported in the general fund of the State's financial statements as unrestricted cash.

Also discussed in Note 10 to these financial statements, the board voted in fiscal year 2015 to close the Prepaid Tuition Plan on June 30, 2022. All funds remaining at that time will be distributed either to account holders or to the West Virginia Unclaimed Property Division where account holders can claim their rightful funds at any time. All funds remaining in the Prepaid Tuition Escrow Account will be transferred to the state.

Savings Plan. As an investment fund, the Savings Plan is subject to the same risks and consequent gains and losses as all publicly and privately offered investment funds. The Savings Plan is directly affected by all factors that affect the economic and investment arenas. Program management continuously monitors activity in the stock market as well as consulting regularly with its various investment advisors and analysts.

Requests for Information

This financial report is designed to provide a general overview of the Program's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Finance Director's Office, West Virginia College Prepaid Tuition and Savings Program, 1900 Kanawha Boulevard East, Charleston, WV 25305.

West Virginia College Prepaid Tuition and Savings Program

Notes to Financial Statements

June 30, 2016

1. Organization and Operations

The West Virginia College Prepaid Tuition and Savings Program (the "Program") operates under the West Virginia State Code Chapter 18, Article 30, West Virginia College Prepaid Tuition and Savings Act (the "Act"). The Act was adopted by the West Virginia State Legislature in 1997. The Act was amended April 12, 2001, to continue the Prepaid Tuition Trust Fund (the "Prepaid Tuition Plan"), which operates as a plan, not a trust fund, and to enhance and complement the Prepaid Tuition Plan by authorizing the creation of the Savings Plan Trust Fund (the "Savings Plan"), which operates as a plan, not a trust fund.

The Program is administered by the Office of the State Treasurer on behalf of the Program's nine-member Board of Trustees (the "Board"). The purpose of the Program is to provide individuals and organizations the opportunity to prepay future college tuition and mandatory fees at West Virginia public and private colleges and universities and to offer a comprehensive state-sponsored college savings plan. Collectively, the Prepaid Tuition Plan and the Savings Plan are marketed as SMART529TM The College Savings Solution. The Board selected Hartford Life Insurance Company ("Hartford Life") to provide records administration, cash management, and customer service for both the Prepaid Tuition Plan and the Savings Plan. Hartford Life also provides investment management services for the Savings Plan.

All funds paid into or invested through the Program in the Prepaid Tuition Plan and the Savings Plan will be available for use at any post-secondary program or two- or four-year college or university in the country, with refund and transfer options available. West Virginia state income tax deductions are available to state residents for contributions to the Program. Since the Program is an Internal Revenue Service Section 529 Qualified Tuition Program, earnings on the funds are federally tax deferred until used for college. Additionally, benefits of the Prepaid Tuition and Savings plans are exempt from federal income tax for qualified payouts.

The accompanying financial statements include business-type activities of the Program reported as enterprise funds, and a private-purpose trust fund reported as a fiduciary fund.

Enterprise Funds: Prepaid Tuition Plan and Administrative Account

Operations of the Prepaid Tuition Plan began in July 1997 with the initial enrollment period commencing on October 1, 1998, and ending January 31, 1999. The Prepaid Tuition Plan has sold approximately 9,730 prepaid tuition contracts since inception. As mentioned earlier in this note, the Prepaid Tuition Plan is administered by the Office of the State Treasurer under the direction of the Program's Board. Hartford Life provides records administration, cash management, and

customer service for the Prepaid Tuition Plan, and provides investment management services for the Savings Plan.

Effective March 8, 2003, the West Virginia Legislature closed the Prepaid Tuition Plan to new contracts until the Legislature authorizes the Prepaid Tuition Plan to reopen. According to State Code (§18-30-6 (g)), closing the Prepaid Tuition Plan to new contracts shall not mean that the Prepaid Tuition Plan is closed and shall not affect any contracts in effect on March 8, 2003. All contract holders will continue to pay any amounts due, including monthly installments, penalties and fees, and the Prepaid Tuition Plan will continue to pay all benefits due. No contracts were sold in fiscal year 2016.

During fiscal year 2015, the board voted to close the Prepaid Tuition Plan on June 30, 2022. Any funds not distributed to account holders or beneficiaries who cannot be located at that time will be transferred to the West Virginia Unclaimed Property Division where the rightful owner can claim the funds at any time. The unclaimed funds will cease to be the responsibility of the Program.

Contract payments of all Prepaid Tuition Plan participants are combined into a single investment fund in order to maximize benefits. The fund is invested in a professionally managed portfolio of stocks, bonds, and other types of investments through the West Virginia Investment Management Board (the "IMB"). Under State Code, the investments must be made with the care, skill, and prudence and diligence under the circumstances prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. Prepaid Tuition Plan investments shall be diversified to the extent permitted by law so as to minimize the risk of a large loss. Monies from the investment fund are used to pay Prepaid Tuition Plan benefits and expenses.

When the beneficiary is accepted to an eligible college or university, the contract becomes redeemable.

Benefits can be transferred to any fully accredited private or out-of-state college or university within the United States in an amount based on the weighted average cost of tuition and fees then charged by West Virginia public colleges and universities. However, there is no guarantee that the tuition benefit available will cover the actual cost of tuition and fees charged by the private or out-of-state institution.

Under current policy, the beneficiary has up to three years in addition to the years purchased to use his or her Prepaid Tuition Plan benefit. For example, if a beneficiary has a plan for four years of benefits, he or she has seven years to exercise the benefits once the account matures. If the plan is for two years of benefits, they must be exercised within five years once the account matures. The other options available are: 1) at any time four years or more after the beneficiary's expected college entrance date, the purchaser may request a refund of the contract benefit value, less a termination fee and an earnings penalty required by federal law; 2) at any time, the purchaser may cancel the contract and receive a refund of the contract value, less administrative fees and any benefits already paid; or 3) the purchaser may transfer the prepaid contract cancellation value at the time of transfer to the Program's Savings Plan in accordance with state and federal regulations.

Any funds not claimed before the exercise period ends will be transferred to the West Virginia Unclaimed Property Division where the rightful owner can claim the funds at any time.

If the beneficiary is awarded a scholarship for tuition and fees, the benefit value of the contract will be paid in accordance with state and federal regulations.

The College Prepaid Tuition and Savings Program Administrative Account (the "Administrative Account") was created by State Code to implement, operate and maintain the Prepaid Tuition and Savings Plans and the overall Program. Sources of funds for the Administrative Account come from fees charged to participants in both the Prepaid Tuition Plan and Savings Plan and from appropriations from the State, which is the primary government. Expenses of the Administrative Account cover administrative operations of the overall Program such as wages and benefits, consulting services, and office supplies.

The accompanying financial statements report the financial position, results of operations, and cash flows for the fiscal year ended June 30, 2016, of the Program's enterprise funds, which includes the Prepaid Tuition Plan and the Administrative Account. The Program's enterprise funds are enterprise funds of the primary government of the State of West Virginia.

Fiduciary Fund: Savings Plan

Beginning March 1, 2002, the Savings Plan has been available in conjunction with the Program's Prepaid Tuition Plan. Investment options have been developed in partnership with Hartford Life. As mentioned earlier in this note, the Savings Plan is administered by the Office of the State Treasurer under the direction of the Program's Board. Hartford Life provides records administration, cash management, investment management and customer service for the Savings Plan.

The Savings Plan currently is composed of 53 different investment portfolios and individual funds. These financial statements report on the total of all portfolios and individual funds.

The Savings Plan is a fiduciary fund (private-purpose trust fund) of the primary government of the State of West Virginia.

2. Significant Accounting Policies – Enterprise Funds

Basis of Accounting

As enterprise funds, the financial statements of the Prepaid Tuition Plan and Administrative Account are presented on the flow of economic resources measurement focus and accrual basis accounting in conformity with accounting principles generally accepted in the United States of America. Under this method of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Enterprise funds are used to account for operations that are financed and operated in a manner similar to

private business enterprises where the intent is that the costs of providing services to the general public and others on a continuing basis be financed or recovered primarily through user charges.

The enterprise funds distinguish operating revenues and expenses from nonoperating. Operating revenues and expenses generally result from providing services in connection with the enterprise funds' principal ongoing operations. The principal operating revenues and expenses relate to tuition contract revenues, tuition contract benefits and expenses, and general and administrative expenses. Net investment earnings and appropriations from the State, which is the primary government, are reported as nonoperating revenues.

It is the Program's policy to first apply unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

As a private-purpose trust fund, which is a type of fiduciary fund, assets of the Savings Plan are held in a trustee capacity for individuals and entities invested in the plan, and those assets cannot be used to support the Program. Because the Savings Plan assets are not available to support the Program's operations, the Savings Plan is discussed separately in Note 11 to these financial statements. Assets of the Program's enterprise funds (the "Prepaid Tuition Plan" and the "Administrative Account") are available to support the Program's operations.

Certain estimates and assumptions are required by management in the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The significant estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred outflows/inflows of resources at the statement of net position date and revenues and expenses for the years then ended are those required in the estimation of tuition contracts receivable, accrued contract benefits liability, accrued contract expense liability, net pension liability, deferred outflows and inflows related to pensions, tuition contract revenues, and tuition contract benefits expenses. Actual results in the near-term could differ from the estimates used to prepare these financial statements.

Budgetary Information

The Office of the State Treasurer submits a detailed budgetary schedule of administrative expenses to the Budget Director of the West Virginia Department of Revenue prior to the beginning of each fiscal year. The budgetary schedule is prepared on the cash basis of accounting. Appropriation requests for the Program are included in the Treasurer's schedule. The budgetary schedule is subject to the annual budget review and approval process of the West Virginia State Legislature. In accordance with GAAP, budgetary financial schedules or statements are not required to be presented in the Program's basic financial statements.

Cash and Cash Equivalents

Cash equivalents are short-term investments with maturities when acquired of 90 days or less. Cash and cash equivalents of the enterprise funds principally consist of interest-earning deposits in certain investment pools maintained by the IMB. Such funds are available to the Program with

overnight notice. Earnings from these investments are distributed to investment pool participants based on their pro rata participation in the pools.

Investments

Investments are funds invested with the IMB. The invested funds are used to pay contract benefits liabilities as they become due. The intent of the investment allocation is to invest funds in the longest terms possible. The current maturity dates of such investments require that the investments be reported as noncurrent assets. However, investments will be liquidated, as needed, to cover current liabilities.

Revenue Recognition

The Plan recognizes revenue for tuition contracts in the year the contracts are entered into with the purchaser, with future contract payments being recognized at their present value. The Plan uses its expected return on investments as the discount rate in calculating such present value. A rate of 5.3% is assumed for the upcoming fiscal year 2017. Declining rates are then assumed for each year through 2022 when the rate is assumed to be 2.3%. Contracts receivable are reduced by the annual amounts of contract payments received, and the remaining contracts receivable is recorded at present value. Changes in the present value of the remaining contracts receivable are recognized in revenue in the year of the change. The Administrative Account records Savings Plan administrative fee revenue from Hartford Life in the period that administrative services are provided.

Tuition Contracts Receivable

Tuition contracts receivable of the Prepaid Tuition Plan at the statement of net (deficit) position date represents Program management's best estimate of the present value of future contract payments using the discount rates discussed above.

Accrued Contract Benefits Liability

Accrued contract benefits liability of the Prepaid Tuition Plan is recorded at the actuarial present value of future tuition obligations. The valuation method reflects the present value of estimated tuition benefits that will be paid in future years and is adjusted for the effects of projected tuition and fee increases and termination of contracts.

Compensated Absences, Including Other Postretirement Benefits

Employees fully vest in all earned but unused annual leave to maximum amounts ranging from 240 to 320 hours depending on years of service, and the Program accrues for obligations that may arise in connection with compensated absences for vacation at the current rate of employee pay. In accordance with personnel policies of the State, employees vest in any remaining unused sick leave only upon retirement, at which time any unused sick and annual leave time either can be converted into employer-paid premiums for post-retirement health care coverage through the West

Virginia Public Employees Insurance Agency (the "PEIA"), or can be converted into a greater retirement benefit under the State of West Virginia Public Employees Retirement System (the "PERS"). The Program accrues for other postretirement benefits that may arise in connection with unused sick leave that may be converted to employer-paid premiums for post-retirement health care coverage, and for the employer portion of all post-retirement health care coverage regardless of whether the retiree has unused sick leave.

Net Pension Liability, Deferred Outflows of Resources, and Deferred Inflows of Resources

Net pension liability represents the Program's proportionate share of the net pension liability of the PERS as of the measurement date of June 30, 2015. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and additions to/deductions from the PERS's fiduciary net position have been determined on the same basis as they are reported by the PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Restricted Assets and Net Position

Restricted assets are subject to constraints imposed by creditors or by law. The Act restricts the Prepaid Tuition Plan's assets to be used specifically for the Prepaid Tuition Plan's obligations; however, the Prepaid Tuition Plan has a deficiency in net position as of June 30, 2016. Accordingly, such deficiency is included in the unrestricted net (deficit) position. Assets of the Administrative Account are restricted for the purposes of implementing, operating and maintaining the Program.

Federal Income Taxes

The Program has been designed to comply with the requirements for treatment as a qualified tuition program under Section 529 of the Internal Revenue Code. Therefore, no federal income tax provision is required.

Effect of New Accounting Pronouncements

The GASB has issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The provisions of this statement are effective for periods beginning after June 15, 2017. Program management has not determined the effect, if any, this statement will have on its financial statements.

3. Investments and Cash and Cash Equivalents

The Program invests its enterprise funds in investment pools maintained by the IMB. The funds are invested in longer term securities and subject to market fluctuations. Investments are reported by the IMB at fair value, which is the same as the value of the pool shares, and are accounted for by the Program accordingly, with changes in the fair value included in investment earnings. The

earnings from these pooled investments are distributed to investment pool participants based on their pro rata participation in the pools.

The Program has adopted an investment policy for the Prepaid Tuition Plan that mandates that investments shall be diversified so as to minimize the risk of large losses. Under the investment policy, a long-term focus on investment results as well as prudent diversification across public security markets will be the primary risk control mechanisms. A prudently allocated investment program possesses a significant level of diversification, which results in risk reduction. Diversification is considered in regard to asset classes, geography/country, industry, and maturity. In order to preserve risk control, the Program has adopted a formal review schedule in which investment performance is reviewed at least quarterly, broad asset allocation and within-class asset allocation are reviewed every three years, and the Program's investment policy is reviewed every year.

The investment policy establishes that the Program's enterprise funds are to be allocated 50.0% to fixed income securities, 27.5% to U.S. equities, and 22.5% to international equities for the fiscal year ended June 30, 2017. The allocation will shift each year after that toward more fixed income securities to a total of 100% in fiscal year 2022. At June 30, 2016, the Program's enterprise funds were invested in the following pools at the IMB:

| | | Percent of |
|-------------------------------|---------------|-------------|
| | Fair Value of | Total |
| | Program's | Program's |
| | Enterprise | Enterprise |
| | Fund | Fund |
| IMB Investment Pools | Investments | Investments |
| | | |
| Large Cap Domestic Equity | \$ 12,168,814 | 22.1% |
| Non-Large Cap Domestic Equity | 3,012,616 | 5.5 |
| Core Fixed Income | 13,425,305 | 24.4 |
| Total Return Fixed Income | 12,676,086 | 23.1 |
| Short-Term Fixed Income | 1,003,164 | 1.8 |
| Opportunistic Debt | 635,061 | 1.2 |
| International Equity | 8,990,133 | 16.4 |
| International Nonqualified | 3,036,761 | 5.5 |
| Total | \$ 54,947,940 | 100.0% |

Investments Measured at Fair Value

The IMB considers investment pools in which the Program's enterprise funds are invested as investment companies in accordance with GAAP, and the IMB follows the accounting and reporting guidance applicable to investment companies as defined by the Financial Accounting Standards Board Accounting Standards Codification 946 – Financial Services – Investment Companies, which is a comprehensive basis of accounting other than GAAP for state and local governments established by the GASB. There are no material differences in the reported amounts

in the IMB pools of assets, liabilities, net assets, investment operations, distributions, or unit transactions between GAAP for investment companies and GAAP for state and local governments.

GASB Statement No. 72, Fair Value Measurement and Application, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market-based measurement, not an entity-specific measurement. The Program categorizes fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America in accordance with GASB Statement No. 72. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

Level 1 inputs – Quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2 inputs – Inputs – other than quoted prices included within Level 1 – that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs – Unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

The following table summarizes the ratio of recurring fair value measurements of the investment securities in the IMB pools in which the Program's enterprise fund holds shares as of June 30, 2016:

Fair Value Measurement as Percent of the Program's Enterprise Fund Total

| _ | riogram s Emerprise rund Total | | | |
|---|--------------------------------|----------|---------|----------|
| IMB Investment Pools | Level 1 | Level 2 | Level 3 | Total |
| | | | | |
| Large Cap Domestic Equity | 88.7% | 11.3% | 0.0% | 100.0% |
| Non-Large Cap Domestic Equity | 74.4% | 25.6% | 0.0% | 100.0% |
| Core Fixed Income | 3.3% | 96.7% | 0.0% | 100.0% |
| Total Return Fixed Income - Assets | 4.6% | 95.4% | 0.0% | 100.0% |
| Total Return Fixed Income - Liabilities | (23.5)% | (76.5)% | 0.0% | (100.0)% |
| Short-Term Fixed Income | 23.3% | 76.7% | 0.0% | 100.0% |
| Opportunistic Debt * | 0.1% | 0.0% | 0.0% | 0.1% |
| International Equity - Assets | 95.0% | 5.0% | 0.0% | 100.0% |
| International Equity - Liabilities | 0.0% | (100.0)% | 0.0% | (100.0)% |
| International Nonqualified * | N/A | N/A | N/A | N/A |

^{*} The Opportunistic Debt Pool and International Nonqualified Pool investments are measured using net asset value per share. GASB Statement No. 72 does not require categorization of investments for which fair value is measured using net asset value per share. In addition to securities measured at net asset value per share, the Opportunistic Debt Pool holds shares in a money market mutual fund.

The following represents a calculation of the net change in the carrying value of investments during the year ended June 30, 2016:

| Carrying value at end of year | \$: | 54,947,940 |
|---|------|-------------|
| Less cost of investments purchased during year | | (906,076) |
| Plus cost of investments redeemed during year | | 12,500,000 |
| Less carrying value at beginning of year | (| 66,439,523) |
| Change in carrying value of investments during year | \$ | 102,341 |

Investment and Deposit Risk Disclosures

Although the Program's investment policy does not specifically address custodial credit risk, credit risk, concentration of credit risk, interest rate risk, and foreign currency risk, the various investment pools at the IMB can be exposed to these investment risks.

Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Program will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The IMB investment pools in which the Program invests its enterprise funds were exposed to no or minimal custodial credit risk at June 30, 2016.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Neither the IMB nor its investment pools have been rated for credit risk by any organization. The credit risks of the IMB investment pools in which the Program invests its enterprise funds are described as follows.

Large Cap Domestic Equity Pool – This pool is exposed to credit risk from investments made with cash collateral for securities loaned. This risk is limited by requiring minimum ratings on debt instruments. Long-term debt instruments must be rated A or better by Moody's or Standard & Poor's at the time of purchase. Short-term debt instruments must be rated P-1 by Moody's or A-1 by Standard & Poor's at the time of purchase. At June 30, 2016, total rated investments exposed to credit risk made up only 10.7% of the pool, while unrated investments in common stock, which are not exposed to credit risk, made up 89.3%.

Non-Large Cap Domestic Equity Pool – This pool is exposed to credit risk from investments made with cash collateral for securities loaned. This risk is limited by requiring minimum ratings on debt instruments. Long-term debt instruments must be rated A or better by Moody's or Standard & Poor's at the time of purchase. Short-term debt instruments must be rated P-1 by Moody's or A-1 by Standard & Poor's at the time of purchase. At June 30, 2016, total rated investments exposed to credit risk made up only 23.7% of the pool, while unrated investments in common stock, which are not exposed to credit risk, made up 76.3%.

International Nonqualified Pool – This pool invests in a collective trust fund that invests in equities denominated in foreign currencies. This pool is not exposed to credit risk.

International Equity Pool – This pool is exposed to credit risk from investments made with cash collateral for securities loaned. This risk is limited by requiring minimum ratings on debt instruments. Long-term debt instruments must be rated A or better by Moody's or Standard & Poor's at the time of purchase. Short-term debt instruments must be rated P-1 by Moody's or A-1 by Standard & Poor's at the time of purchase. At June 30, 2016, total rated investments exposed to credit risk made up only 5.4% of the pool, while unrated investments in common and preferred stock, which are not exposed to credit risk, made up 94.6%.

Short-Term Fixed Income Pool – The IMB limits the exposure to credit risk in the Short-Term Fixed Income Pool by requiring all corporate bonds to be rated AA or higher. Commercial paper must be rated A-1 by Standard & Poor's and P-1 by Moody's. Additionally, the pool must have at least 15% of its assets in United States Treasury issues. The following table provides information on the weighted average credit ratings of the pool's investments at June 30, 2016. The table includes U.S. Treasury notes received as collateral for a repurchase agreement.

| | | | Percent of |
|--------------------------------|---------|-----|-------------|
| Security Type | Moody's | S&P | Pool Assets |
| | | | |
| Commercial paper | P-1 | A-1 | 14.9% |
| Money market mutual fund | Aaa | AAA | 23.2 |
| U.S. Treasury bonds * | Aaa | AA | 24.9 |
| U.S. government agency bonds * | P-1 | A-1 | 37.0 |
| Total rated investments | | | 100.0% |

^{*} Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality. The ratings are shown for the reader's information.

Core Fixed Income Pool – The IMB limits the exposure to credit risk in the Core Fixed Income Pool by maintaining at least an average rating of investment grade as defined by the Nationally Recognized Statistical Rating Organizations. The following table provides information on the weighted average credit ratings of the pool's asset types at June 30, 2016. The table includes investments received as collateral for repurchase agreements.

| Security Type | Moody's | S&P | Percent of Pool Assets |
|--|---------|-----|------------------------|
| | | | |
| Corporate asset backed issues | Aa | AA | 6.7% |

^{*} Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality. The ratings are shown for the reader's information.

Unrated securities include common stock valued at 2.0% of the fair value of the Pool's investments.

Total Return Fixed Income Pool – The IMB limits the exposure to credit risk in the Total Return Fixed Income Pool by maintaining at least an average rating of investment grade as defined by the Nationally Recognized Statistical Rating Organizations. The following table provides information on the weighted average credit ratings of the pool's asset types at June 30, 2016. The table includes investments received as collateral for repurchase agreements.

| Cognity Type | Moody's | S&P | Percent of Pool Assets |

| U.S. Treasury bonds * | Aaa | AA | 5.0 |
| U.S. Treasury inflation protected security * | Aaa | AA | 1.2 |
| Total rated investments | | | 81.3% |

^{*} Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality. The ratings are shown for the reader's information.

Unrated securities include common stock, corporate ABS residual, investments in other funds, and options contracts purchased valued at 18.7% of the fair value of the Pool's investments.

Opportunistic Debt Pool – This pool is exposed to credit risk from investments in unrated direct lending funds. This risk is limited by requiring that underlying fund holdings are at least 90% collateralized by one or more assets of the issuer. The pool also holds shares of a money market mutual fund with the highest credit rating.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the Program's investment in a single corporate issuer. Except for the Opportunistic Debt Pool, none of the IMB pools in which the Program participates held securities of any one issuer in excess of 5% of the value of the pools in accordance with West Virginia statutes and are not exposed to concentration of credit risk. Due to being in the infancy stage of the lending program, the Opportunistic Debt Pool is exposed to concentration of credit risk. Approximately 32% of committed capital has been called. As the lending program becomes fully funded, the concentration of credit risk will be mitigated. Each asset manager is restricted from investing more than 10% of the capital commitment in a single issuer for investments that are expected to be held longer than one year. At June 30, 2016, the pool was in compliance with this restriction.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The International Nonqualified Pool is not exposed to interest rate risk. The following pools are exposed to interest rate risk.

Large Cap Domestic Equity Pool – This pool is exposed to interest rate risk from investments made with cash collateral for securities loaned. The weighted average maturity (the "WAM") for investments made with cash collateral for securities loaned is not to exceed 90 days. The following table provides the WAM for the investments made with cash collateral for securities loaned as of June 30, 2016.

| | Percent of | WAM |
|-----------------------|-------------|--------|
| Security Type | Pool Assets | (Days) |
| Repurchase agreements | 8.5% | 2 |
| Time deposits | 2.8 | 1 |
| | 11.3% | 1 |

Non-Large Cap Domestic Equity Pool – This pool is exposed to interest rate risk from investments made with cash collateral for securities loaned. The weighted average maturity WAM for investments made with cash collateral for securities loaned is not to exceed 90 days. The maturity of floating rate notes is assumed to be the next interest reset date. The following table provides the WAM for the investments made with cash collateral for securities loaned as of June 30, 2016.

| | Percent of | WAM |
|-----------------------|-------------|--------|
| Security Type | Pool Assets | (Days) |
| Repurchase agreements | 19.2% | 2 |
| Time deposits | 6.4 | 1 |
| | 25.6% | 1 |
| | | • |

International Equity Pool – This pool is exposed to interest rate risk from investments made with cash collateral for securities loaned. The weighted average maturity WAM for investments made with cash collateral for securities loaned is not to exceed 90 days. The following table provides the WAM for the investments made with cash collateral for securities loaned as of June 30, 2016.

| | Percent of | WAM |
|-----------------------|-------------|--------|
| Security Type | Pool Assets | (Days) |
| Repurchase agreements | 3.7% | 2 |
| Time deposits | 1.3 | 1 |
| | 5.0% | 1 |

Short-Term Fixed Income Pool – The WAM of the investments in this pool is not to exceed 60 days. The maturity of floating rate notes is assumed to be the next interest rate reset date. The following table provides the WAM for the various asset types in the Short-Term Pool as of June 30, 2016.

| | Percent of | WAM |
|------------------------------|-------------|--------|
| Security Type | Pool Assets | (Days) |
| Repurchase agreements | 3.7% | 1 |
| Commercial paper | 14.9 | 22 |
| Money market mutual fund | 23.3 | N/A |
| U.S. government agency bonds | 36.9 | 55 |
| U.S. Treasury bond | 21.2 | 28 |
| | 100.0% | 39 |

Core Fixed Income Pool – The IMB monitors interest rate risk of this pool by evaluating the effective duration of the investments in the pool. The following table provides the weighted average effective duration for the various asset types in the pool as of June 30, 2016.

| Security Type | Percent of Pool Assets | Effective Duration (Years) |
|--|------------------------|----------------------------|
| Corporate asset backed issues | 6.7% | 2.1 |
| Corporate CMO | 5.5 | 2.5 |
| Corporate CMO interest-only | 0.1 | (17.4) |

The Core Fixed Income Pool invests in commercial and residential mortgage-backed and asset-backed securities and collateralized mortgage obligations. The cash flows from these securities are based on the payment of the underlying collateral. The effective duration and yield to maturity of these securities are dependent on estimated prepayment assumptions that consider historical experience, market conditions, and other criteria. Actual prepayments may vary with changes in interest rates. Rising interest rates often result in a slower rate of prepayments while declining rates tend to lead to faster prepayments. As a result, the fair values of these securities are highly sensitive to interest rate changes. At June 30, 2016, these securities were approximately 44.0% of the value of the Core Fixed Income Pool.

Total Return Fixed Income Pool – The IMB monitors interest rate risk of this pool by evaluating the effective duration of the investments in the pool. The following table provides the weighted average effective duration for the various asset types in the pool as of June 30, 2016.

| Security Type | Percent of Pool Assets | Effective Duration (Years) |
|--|------------------------|----------------------------|
| security Type | 1 001 1 1550 15 | (Tears) |
| Bank loan | 0.0% | 0.1 |
| Corporate ABS residual | 0.3 | N/A |
| Corporate asset backed issues | 1.7 | 1.8 |
| Corporate CMO | 1.3 | 1.9 |
| Corporate preferred securities | 0.5 | 0.1 |
| Foreign asset backed issues | 0.6 | 2.4 |
| Foreign corporate bonds | 13.6 | 6.6 |
| Foreign government bonds | 10.1 | 6.0 |
| Investment in other funds | 16.8 | 2.9 |
| Money market mutual funds | 3.1 | N/A |
| Municipal bonds | 1.9 | 10.4 |
| Options contracts purchased | 0.1 | N/A |
| Repurchase agreements | 2.8 | 0.0 |
| Time deposits | 0.9 | 0.0 |
| U.S. corporate bonds | 25.1 | 8.3 |
| U.S. government agency bonds | 0.1 | 3.3 |
| U.S. government agency CMO | 3.0 | 0.9 |
| U.S. government agency CMO interest-only | 0.3 | 34.0 |
| U.S. government agency MBS | 11.9 | 1.7 |
| U.S. government agency TBA | 0.0 | 0.0 |
| U.S. Treasury bonds | 4.7 | 3.0 |
| U.S. Treasury inflation protected security | 1.2 | 19.5 |
| | 100.0% | 5.1 |

Opportunistic Debt Pool – This pool is exposed to interest rate risk from investments in direct lending funds. The IMB manages interest rate risk of the pool by requiring at least 80% of the fund holdings that mature in more than one year to have variable or floating interest rate structures.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The following IMB pools in which the Program participates are exposed to no or minimal foreign currency risk: Large Cap Domestic Equity Pool, Non-Large Cap Domestic Equity Pool, Short-Term Fixed Income Pool, Core Fixed Income Pool and Total Return Fixed Income Pool. The following pools are exposed to foreign currency risk.

International Nonqualified Pool – This pool invests in a collective trust fund that invests in equities denominated in foreign currencies. This investment, although denominated in U.S. dollars, is exposed to foreign currency risk through the underlying investments.

International Equity Pool – This pool has both equity securities and cash that are denominated in foreign currencies and are exposed to foreign currency risks.

Opportunistic Debt Pool – The investments in direct lending funds in this pool might be indirectly exposed to foreign currency risk.

Deposit Risk

The carrying value in the Administrative Account of cash on deposit with the State Treasurer's Office was \$2,289,805 at June 30, 2016. The cash is pooled with other deposits from the State's agencies, departments, boards and commissions and is subject to coverage by the Federal Deposit Insurance Corporation (the "FDIC") or collateralized by securities held by the State or its agents in the State's name. Other cash deposits held in outside bank accounts were \$2,561,939. Such deposits are insured by the FDIC or collateralized by the State or its agents in the State's name. Custodial credit risk in regard to deposits is the risk that in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Program does not have a deposit policy for custodial credit risk. Program management does not believe any of its deposits are exposed to custodial credit risk.

Derivative Financial Instruments

The Program indirectly holds derivative financial instruments by its participation in two investment pools at the IMB. In the Large Cap Domestic Equity Pool, futures contracts are the only derivative financial instrument held and represent less than 0.1% of the pool's total assets as of June 30, 2016. In the Total Return Fixed Income Pool, derivative financial instruments may include foreign exchange contracts, futures, options, credit default swaps, interest rate swaps, and currency swaps. Derivative instruments represent less than 0.4% of total assets and less than 19.3% of total liabilities in the Total Return Fixed Income Pool. As the Program does not hold any direct investments in derivative financial instruments, no further disclosure or consideration of their impact on the Program's financial position and results of operations is required.

4. Accrued Contract Benefits Liability

The total actuarial present value of accrued contract benefits liability of \$70,758,634 as of June 30, 2016, was based on the provision for contract benefits since inception of the Prepaid Tuition Plan. Current liabilities of \$16,199,520 represent obligations that will become due within a year from June 30, 2016. Noncurrent liabilities of \$54,559,114 represent obligations that will become due more than a year after June 30, 2016.

Under the actuarial evaluation, tuition and fees are assumed to increase an average of 8.5% for the 2017-18 school year and each year thereafter to the end of the Prepaid Tuition Plan on June 30,

2022. Investments are assumed to earn 5.3% for the year ending June 30, 2017. Declining rates are assumed for each year thereafter through 2022 when the rate is assumed to be 2.3%.

The accrued contract benefits liability at June 30, 2016, and changes for the fiscal year then ended are as follows:

| Beginning balance, June 30, 2015 | \$ 81,529,807 |
|--------------------------------------|---------------|
| Interest cost | 3,986,540 |
| Actuarial gain | (2,023,275) |
| Miscellaneous factors | (110,299) |
| Tuition benefit payments and refunds | (12,624,139) |
| Ending balance, June 30, 2016 | \$ 70,758,634 |

The actuarial gain was the result of tuition increases for the 2016-17 school year being less than expected. Weighted average tuition had been assumed to increase 8.5% but instead increased 5.7%.

5. Tuition Contract Benefits and Expenses

The tuition contract benefits and expenses represent current expenses of the Prepaid Tuition Plan. Such amounts are determined by the time value of money as a result of changes in actuarial assumptions year over year. Because the Prepaid Tuition Plan is closed to new enrollments, the revenues and expenses related to such accounts are determined directly and solely by actuarial assumptions, estimations, and economic factors, such as the actuarial interest rate, tuition growth projections, account cancellations, economic inflation, beneficiaries' choices of schools, and actual experience versus actuarial expectations. In any given year, fluctuations in actuarial assumptions and/or actual experience can significantly change revenues and expenses, and, under certain circumstances, create negative revenues and expenses. An actuarial gain in the accrued contract expense liability in the Administrative Account at June 30, 2016 created a negative tuition contract expense, which is reported as a gain, or operating revenue, of \$79,213 for the year ended June 30, 2016.

The following represents components of tuition contract benefits and expenses reported on the Statement of Revenues, Expenses and Changes in Net (Deficit) Position for the Year Ended June 30, 2016:

Tuition contract benefits

| Interest growth in actuarially estimated tuition contract benefits for the year | |
|--|--------------|
| ended June 30, 2016 | \$ 3,986,540 |
| Decrease in accrued contract benefits liability due to lower tuition growth than | |
| estimated for the 2016-17 school year | (2,023,275) |
| Decrease in accrued contract benefits liability due to miscellaneous factors | (110,299) |
| Tuition contract benefits for the year ended June 30, 2016 (an actuarial loss on | |
| accrued contract benefits liability) | \$ 1,852,966 |

<u>Tuition contract expenses</u>

| Interest growth in actuarially estimated tuition contract expenses for the year | |
|---|----------------|
| ended June 30, 2016 | \$ 17,932 |
| Decrease in accrued contract expense liability due to assumed actuarial | |
| payments during the year ended June 30, 2016 | (113,478) |
| Increase in accrued contract benefits liability due to changes in Prepaid Tuition | |
| Plan provisions and miscellaneous factors | 16,333 |
| Tuition contract expenses for the year ended June 30, 2016 (an actuarial gain | |
| on accrued contract benefits liability and reported as operating revenue) | \$ (79,213) |

6. Compensated Absences and Other Postemployment Benefits

Compensated Absences

The accruals for compensated absences represent obligations that may arise for earned but unused annual leave as of June 30, 2016. Current liabilities of \$63,355 represent obligations for compensated absences that can become due within a year from June 30, 2016.

The accrued compensated absences liability at June 30, 2016, and changes for the fiscal year then ended are as follows:

| Beginning balance, June 30, 2015 | \$ 63,751 |
|----------------------------------|-----------|
| Addition: Annual leave earned | 33,659 |
| Reduction: Annual leave used | (31,236) |
| Reduction: Decrease in employer | |
| contribution for the year ended | |
| June 30, 2017 | (819) |
| Ending balance, June 30, 2016 | \$ 65,355 |

Other Postemployment Benefits Plan Description

The State of West Virginia sponsors the West Virginia Other Postemployment Benefits Plan (the "OPEB Plan"), a cost-sharing multiple-employer defined benefit postemployment plan administered by the West Virginia Public Employees Insurance Agency (the "PEIA"), to provide medical benefits to retired state and local government employees. Chapter 5, Article 16D of the West Virginia Code created the West Virginia Retiree Health Benefits Trust Fund (the "RHBT") and assigns the authority to administer the plan to PEIA. The PEIA issues a publicly available financial report that includes financial statements and required supplementary information for the Trust. That report can be obtained by writing to PEIA, 1900 Kanawha Boulevard East, Charleston, WV 25305, or by calling (304) 558-7850.

Other Postemployment Benefits Plan Funding Policy

The State Code requires the OPEB Plan to bill the participating employers 100.0% of the Annual Required Contribution ("ARC"), an amount actuarially determined in accordance with GAAP. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded liabilities (or funding excess) of the plan over a period not to exceed thirty years. State of West Virginia plan employers are billed per active health policy per month. The latest OPEB actuarial valuation was performed as of June 30, 2015, and the ARC amounts were applied prospectively to the fiscal year beginning July 1, 2015.

The Program's ARC to the OPEB Plan was \$30,888, \$23,340, and \$22,680, and the Program paid premiums of \$10,925, \$12,236, and \$11,792, which represented 35.4%, 52.4%, and 52.0%, of the ARC, respectively, for the years ending June 30, 2016, 2015, and 2014. As of June 30, 2016 the Program has recorded an OPEB liability of \$229,759.

7. Retirement Benefits

General Information about the Retirement Plan

Retirement Plan Description

The Program contributes to the Public Employees Retirement System (the "PERS"), a cost-sharing multiple-employer defined benefit pension plan administered by the West Virginia Consolidated Public Retirement Board (the "CPRB") pursuant to Chapter 5, Article 10D of the West Virginia Code. The CPRB issues a publicly available financial report that includes financial statements and required supplementary information for the PERS. That report can be obtained at the CPRB's internet address http://www.wvretirement.com/ or by writing to CPRB, 4101 MacCorkle Avenue Southeast, Charleston, WV 25304.

Benefits Provided

The PERS provides retirement, disability and death benefits to plan members and beneficiaries.

Qualification for normal retirement is age 60 with five years of service or at least age 55 with age and service equal to 80 or greater. For all employees hired July 1, 2015 and later, qualification for normal retirement is age 62 with 10 years of service or at least age 55 with age and service equal to 80 or greater. The straight-life annuity retirement benefit is equivalent to 2% of average salary multiplied by years of service. Average salary is the average of the highest annual compensation during any period of three consecutive years within the last fifteen years of earnings. For all employees hired July 1, 2015 and later, average salary is the average of the five consecutive highest annual earnings out of the last fifteen years of earnings. Terminated members with at least five years of contributory service who do not withdraw their accumulated contributions may elect to receive their retirement annuity beginning at age 62. For all employees hired July 1, 2015 and later, this age increases to 64.

Disability benefits shall not be less than 50% of a member's FAS. At age 65 the benefit is calculated on actual years of service and may be reduced, but the straight life benefit or equivalent may not be less than 20% of FAS.

For death benefits, the PERS members may select beneficiary options based only upon the specific category that describes his or her particular circumstance at the time a beneficiary form is completed (i.e., date of hire, years of service and marital status).

Contributions

The PERS is funded by employee or member contributions and employer contributions. Although contributions are not actuarially determined, actuarial valuations are performed to assist the Legislature in establishing appropriate contribution rates. Current funding policy requires contributions, consisting of member contributions of 4.5% of covered payroll and employer contributions of 13.5%, 14.0%, and 14.5% for the years ended June 30, 2016, 2015, and 2014, respectively. All members hired July 1, 2015 and later, will contribute 6% of annual earnings. Effective July 1, 2016 employer contributions will be 12%. The Program's contribution to the PERS was \$47,298, \$38,263 and \$49,346 for the years ended June 30, 2016, 2015 and 2014, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the Program reported a liability of \$112,537 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2014. The Program's proportion of the net pension liability was based on a projection of the Program's long-term share of contributions to the PERS relative to the projected contributions of all participating employers in the PERS. At June 30, 2015, the Program's proportion was 0.0249%, which was a decrease from its proportion of 0.0254% as of June 30, 2014.

For the year ended June 30, 2016, the Program recognized pension expense of \$10,750. At June 30, 2016, the Program reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred | Deferred |
|--|-------------|------------|
| | Outflows of | Inflows of |
| | Resources | Resources |
| Differences between expected and actual experience | \$ 23,016 | \$ - |
| Changes of assumptions | - | 13,536 |
| Net difference between projected and actual earnings on | | |
| pension plan investments | 34,335 | 59,012 |
| Changes in proportion and differences between Program | | |
| contributions and proportionate share of contributions | - | 67,618 |
| Program contributions subsequent to the measurement date | 47,298 | |
| Total | \$ 104,649 | \$ 140,166 |

The \$47,298 reported as deferred outflows of resources related to pensions resulting from Program contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

| 2017 | \$ (30,725) |
|------|-------------|
| 2018 | (30,725) |
| 2019 | (29,950) |
| 2020 | 8,585 |

Actuarial Assumptions

The total pension liabilities in the June 30, 2015 and 2014 actuarial valuations were determined using the following assumptions, applied to all periods included in the measurement:

| | <u>2015</u> | <u>2014</u> |
|---------------------------|-------------|-------------|
| Inflation | 1.9% | 2.2% |
| Salary increases | 3.0 - 6.0% | 4.25 - 6.0% |
| Investment rate of return | 7.5% | 7.5% |

Mortality rates in the June 30, 2015 and 2014 actuarial valuations were determined using the following assumptions:

| | <u>2015</u> | <u>2014</u> |
|------------------|---|---|
| Healthy males | 110% of RP-2000 Non- Annuitant, Scale AA | 1983 GAM male |
| Healthy females | 101% of RP-2000 Non- Annuitant, Scale AA | 1971 GAM female, set back 1 year |
| Disabled males | 96% of RP-2000 Disabled Annuitant, Scale AA | 1971 GAM male, set forward 8 years |
| Disabled females | 107% of RP-2000 Disabled Annuitant, Scale AA | Revenue Ruling 96-7 disabled female table |

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2009 through June 30, 2014, while the assumptions for the June 30, 2014 valuation were based on the period July 1, 2004 through June 20, 2009.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| | Target | Long-Term Expected Rate |
|----------------------|------------|-------------------------|
| Asset Class | Allocation | of Return |
| Domestic equity | 27.5% | 7.6% |
| International equity | 27.5 | 8.5% |
| Fixed income | 15.0 | 2.9% - 4.8% |
| Real estate | 10.0 | 6.8% |
| Private equity | 10.0 | 9.9% |
| Hedge funds | 10.0 | 5.0% |
| Total | 100.0% | |

Discount Rate

The discount rate used to measure the total pension liability was 7.5%. The projections of cash flows used to determine the discount rates assumed that employer contributions will continue to follow the current funding policies. Based on those assumptions, the fiduciary net position of the pension plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rates of return on pension plan investments were

applied to all periods of projected benefit payments to determine the total pension liabilities. There were no changes in the discount rates between measurement dates.

Sensitivity of the Program's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Program's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what the Program's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

| | 1% | Discount | 1% |
|--|------------|------------|-------------|
| | Decrease | Rate | Increase |
| | (6.5%) | (7.5%) | (8.5%) |
| Program's proportionate share of the net pension | | | |
| liability (asset) | \$ 259,539 | \$ 112,537 | \$ (11,658) |

8. Transactions with State Treasurer's Office

The State Treasurer's Office provides various administrative services at no cost to the Program and pays certain administrative costs on behalf of the Program. Such administrative services and costs were not determinable for the year ended June 30, 2016 because they were blended in with the overall operations of the State Treasurer's Office.

9. Risk Management

The Program is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to and illnesses of employees; and natural disasters.

The Program has obtained health coverage for its employees through PEIA. PEIA provides the following basic employee benefit coverage to all participants: hospital, surgical, group major medical, basic group life, accidental death, and prescription drug coverage for active and retired employees of the State of West Virginia and various related State and non-State agencies. Additionally, the Program has obtained coverage for job-related injuries through its participation in the private, employer-owned mutual insurance company BrickStreet Insurance. There have been no workers' compensation claims since the inception of the Program.

Furthermore, the Program uses the West Virginia State Board of Risk and Insurance Management, which provides a public entity risk pool, to obtain coverage in the amount of \$1,000,000 per occurrence for general liability and property damage. There have been no claims since the inception of the Program.

10. Net Position Deficiency

The Prepaid Tuition Plan has a net position deficiency of approximately \$13,071,484 as of June 30, 2016. This deficiency was largely caused by investment losses in fiscal years 2002, 2008 and 2009, unexpected tuition increases in the 2002-2003 and 2004-2005 school years, changes in prior years of estimates of future investment rate of return and tuition growth, and significant adjustments in actuarial assumptions in fiscal year 2008. Although the Prepaid Tuition Plan was on the road to recovery from the impact of those past economic events, the deficit grew in fiscal years 2015 and 2016 primarily because of actuarial losses related to investment performance being less than projected, and because of changes in actuarial assumptions in fiscal year 2015 related to projected high tuition increases for the next seven years.

The Program's ability to pay obligations of the Prepaid Tuition Plan is dependent on long-term investment programs and adequate levels of future cash flows. Management sought and received support from the State Legislature in the form of a pledge of assets from the State Unclaimed Property Trust Fund to support payment of Prepaid Tuition Plan benefits. In March 2003, the Legislature created the Prepaid Tuition Trust Escrow Account to guarantee payment of Prepaid Tuition Plan contracts. Under the legislation, the Escrow Account will receive transfers of \$1,000,000 from the State Unclaimed Property Trust Fund each year there is an actuarially determined unfunded liability of the Prepaid Tuition Plan. An additional one-time transfer of \$8,000,000 from the Unclaimed Property Trust Fund was authorized for July 2009. All earnings on the transferred funds will remain in the Escrow Account. In the event the Prepaid Tuition Plan is unable to cover the amount of money needed to meet its current obligations, funds may be withdrawn from the Escrow Account to meet those obligations. The independent actuarial valuation as of June 30, 2016 estimates that the Prepaid Tuition Plan will exhaust its investment funds during fiscal year 2021 and will then need to begin drawing from the Escrow Account to pay its obligations.

Beginning in December 2003, funds totaling \$18,254,008 have been transferred to the Escrow Account because the Prepaid Tuition Plan had actuarial deficits in fiscal years 2003-15. The funds were invested and have had a net investment gain of \$1,564,804 for the thirteen years ended June 30, 2016, leaving the account with a balance of \$19,818,812 at June 30, 2016. There was \$1,000,000 transferred in fiscal year 2016 because of the actuarial unfunded liability at the end of fiscal year 2015. Because there was an actuarially determined unfunded liability of \$13,071,552 in the Prepaid Tuition Plan as of June 30, 2016, an additional \$1,000,000 is expected to be transferred from the Unclaimed Property Trust Fund to the Escrow Account on or before December 15, 2016, in accordance with the provisions enacted by the Legislature. Funds transferred or to be transferred into the Escrow Account do not affect the actuarial valuation of the Prepaid Tuition Plan and are not included in the Prepaid Tuition Plan's basic financial statements. The State reports the Escrow Account in the general fund in its financial statements as unrestricted cash.

Effective March 8, 2003, the West Virginia Legislature closed the Prepaid Tuition Plan to new contracts. According to State Code (§18-30-6 (g)), closing the plan to new contracts shall not mean that the Prepaid Tuition Plan is closed and shall not affect any contracts in effect on March

8, 2003. Contract holders will continue to pay any amounts due, and the Prepaid Tuition Plan will continue to pay all benefits due.

During fiscal year 2015, the board voted to close the Prepaid Tuition Plan on June 30, 2022. Any funds not distributed to account holders or beneficiaries who cannot be located at that time will be transferred to the West Virginia Unclaimed Property Division where the rightful owner can claim the funds at any time. The unclaimed funds will cease to be the responsibility of the Program. If at any time on or before June 30, 2022, the Prepaid Tuition Plan should exhaust its funds, any funds needed to pay benefits and terminations will be drawn from the Escrow Account. Once the Prepaid Tuition Plan is terminated and all rightful unclaimed funds are transferred out of the Program, the Escrow Account will be dissolved and all remaining funds in the account will be transferred to the State.

Management believes that the Prepaid Tuition Plan will continue to have sufficient liquid resources to meet its obligations as they become due through June 30, 2017. The accompanying financial statements do not reflect any adjustments that might result should management's actions to eliminate the net position deficiency fail to be successful.

11. Significant Accounting Policies - Savings Plan

Basis of Accounting

As a fiduciary fund, the Savings Plan's financial statements are presented on the flow of economic resources measurement focus and the accrual basis of accounting. As mentioned in Note 2, the Savings Plan is a private-purpose trust fund, which is a type of fiduciary fund. Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support a government's own programs. A private-purpose trust fund is a fiduciary fund used to report all trust arrangements, other than pension (and other employee benefit) trust funds and investment trust funds, under which principal and income benefit individuals, private organizations, or other governments. Revenues mainly are derived from investment income. Expenses consist primarily of investment expenses and administrative costs associated with the Savings Plan.

Security Transactions and Investment Income

Security transactions of the Savings Plan are recorded on the trade date (date the order to buy or sell is executed). Dividend income and capital gain distribution from the underlying funds, if any, are recorded on the ex-dividend date. Realized gains and losses on securities transactions are computed on the basis of identified cost.

Investments in the underlying funds are carried at the closing net asset value per share of each underlying fund on the day of valuation.

The Savings Plan contains a guaranteed investment contract named the SMART529 Stable Value Fund. This fund is managed by INVESCO International. The contract has a guaranteed interest

rate that resets quarterly. Following the guidance and provisions of GAAP, the guaranteed investment contract is a nonparticipating contract in which the redemption terms of the contract do not consider current market rates. The nonparticipating guaranteed investment contract is valued at contract value (i.e., cost plus accrued interest) as required under the current governmental accounting standards.

Units

Contributions by a participant are evidenced through the issuance of units in the particular portfolio or fund. Contributions and withdrawals are subject to terms and limitations defined in the participation agreement between the participant and the Savings Plan. Contributions are invested in units of the assigned portfolio or fund on the same day as the credit of the contribution to the participant's account. Withdrawals are based on the unit value calculated for such portfolio or fund on the day that the withdrawal request is accepted. The earnings portion of non-qualified withdrawals, in addition to applicable federal and state income tax, may be subject to a 10% non-qualified withdrawal penalty to be withheld from the withdrawal.

Expenses

Expenses in the Savings Plan financial statements reflect investment management fees, and distribution and administrative charges.

Fair Value Measurement

Hartford Life invests and manages the Savings Plan investments in 53 different portfolios for the Program. Each portfolio, in turn, is either a mutual fund or contains multiple mutual funds. Except for the SMART529 Stable Value Fund, as discussed below, investments are reported at fair value, which is the same as the value of the pool shares, and are accounted for by the Savings Plan accordingly, with changes in the fair value included in investment earnings.

As discussed in Note 3, GASB Statement No. 72 establishes classification of fair value measurements of investments within a fair value hierarchy, which categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

Level 1 inputs – Quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2 inputs – Inputs – other than quoted prices included within Level 1 – that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs – Unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

As of the year ended June 30, 2016, all investment securities within the portfolios, except for the SMART529 Stable Value Fund, were measured at fair value using Level 1 inputs.

The SMART529 Stable Value Fund is a synthetic guaranteed investment contract, which is a form of derivative instrument, and accordingly is reported at contract value in accordance with GAAP. Changes in contract value are included in investment earnings. The fair value and the contract value of the SMART529 Stable Value Fund as of June 30, 2016 are as follows:

| | Fair Value | Contract Value |
|----------------------------------|----------------|----------------|
| Underlying investments | \$ 363,436,933 | \$ 351,474,805 |
| Wrap contract | | |
| Total SMART529 Stable Value Fund | \$ 363,436,933 | \$ 351,474,805 |

Various portfolios include the SMART529 Stable Value Fund as part of their families of underlying investments. Additionally, the SMART529 Direct Stable Value Fund and The Hartford SMART529 Stable Value Fund are standalone investment options that contain only the SMART529 Stable Value Fund.

The following represents a calculation of the net change in the carrying value of investments during the year ended June 30, 2016:

| Carrying value at end of year | \$ 2,232,967,521 |
|---|------------------|
| Less cost of investments purchased during year | (604,220,276) |
| Plus cost of investments redeemed during year | 500,230,945 |
| Less carrying value at beginning of year | (2,265,287,374) |
| Change in carrying value of investments during year | \$ (136,309,184) |

The Program has adopted an investment policy for the Savings Plan that requires blended benchmarks for the various funds and portfolios. While the diversified benchmarks represent the diversification of the funds and portfolios – and diversification in general results in risk reduction – the investment policy does not specifically address custodial credit risk, credit risk, concentration credit risk, interest rate risk or foreign currency risk. Investments in the Savings Plan represent units of mutual funds rather than specific securities, and as such are not exposed to those risks. Neither the Program, the Savings Plan, nor the funds and portfolios have been rated for credit risk by any organization.

Related Parties and Fund Managers and Advisors

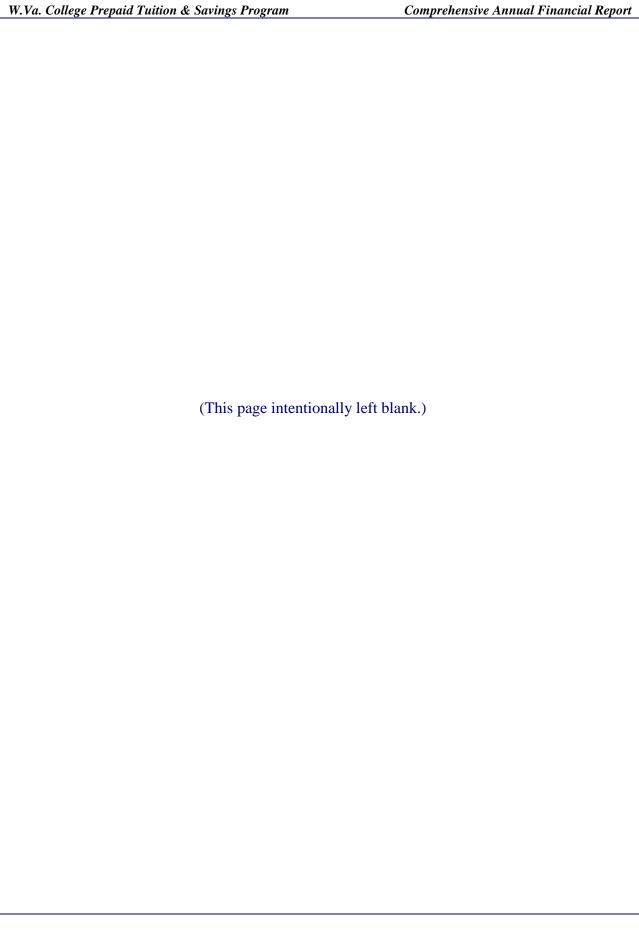

<u>SMART529 WV Direct College Savings Plan</u> The Vanguard Group, Inc. ("Vanguard"), through its Equity Investment Group, serves as the investment adviser to all of the underlying funds, except for the SMART529 Stable Value Fund, which is managed by Invesco Advisers, Inc. ("Invesco"). Hartford Funds Management Company, LLC ("HFMC"), which is a wholly owned indirect subsidiary of The Hartford, is the principal underwriter and distributor for the plan.

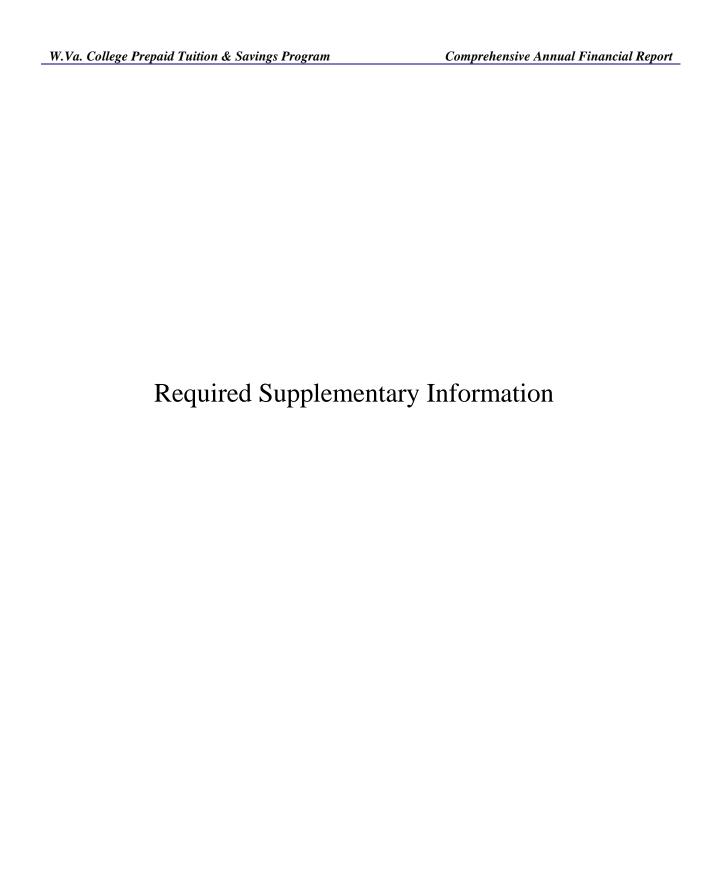

<u>The Hartford SMART529 College Savings Plan</u> All of the underlying funds except the SMART529 Stable Value Portfolio and the MFS Global Equity Fund are managed by HFMC. The SMART529 Stable Value portfolio is managed by Invesco. Massachusetts Financial Services Company is the investment advisor for the MFS Global Equity Fund.

Wellington Management Company, LLP ("Wellington Management") is investment sub-advisor to The Hartford Total Return Bond Fund, The Hartford Inflation Plus Fund, The Hartford High Yield Fund, The Hartford Capital Appreciation Fund, The Hartford Small Cap Growth Fund, The Hartford MidCap Fund, The Hartford MidCap Value Fund, The Hartford Dividend and Growth Fund, The Hartford Growth Opportunities Fund, The Hartford Small Company Fund, The Hartford Equity Income Fund, The Hartford International Opportunities Fund, The Hartford International Small Company Fund, The Hartford Global Real Asset Fund, The Hartford Global All Asset Fund, The Hartford Emerging Markets Research Fund, The Hartford Balanced Income Fund, The Hartford Strategic Income Fund, The Hartford Unconstrained Bond Fund, and The Hartford World Bond Fund.

SMART529 Select College Savings Plan Dimensional Fund Advisors is investment advisor to the underlying DFA portfolios in the SMART529 Select College Savings Plan.

Hartford Life and the West Virginia State Treasurer's Office provide administrative services.

West Virginia College Prepaid Tuition and Savings Program

Notes to Required Supplementary Information

1. Trend Information Presented

The accompanying schedules of the Program's proportionate share of the net pension liability and contributions to PERS are required supplementary information to be presented for 10 years. However, until a full 10-year trend is compiled, information is presented in the schedules for those years for which information is available.

2. Plan Amendment

The PERS was amended to make changes which apply to new employees hired after July 1, 2015 as follows:

- For employees hired prior to July 1, 2015, qualification for normal retirement is age 60 with five years of service or at least age 55 with age and service equal to 80 or greater. For employees hired after July 1, 2015, qualification for normal retirement is 62 with 10 years of service or at least age 55 with age and service equal to 80 or greater.
- The straight life annuity retirement benefit is equivalent to 2% of average salary multiplied by years of service. For employees hired prior to July 1, 2015, average salary is the average of the three consecutive highest annual earnings out of the last fifteen years of earnings. For all employees hired after July 1, 2015 average salary is the average of the five consecutive highest annual earnings out of the last fifteen years of earnings.
- For employees hired prior to July 1, 2015, terminated members with at least five years of contributory service who do not withdraw their accumulated contributions may elect to receive their retirement annuity beginning at age 62. For all employees hired after July 1, 2015, this age increases to 64.
- For all employees hired prior to July 1, 2015, employees are required to contribute 4.5% of annual earnings. All employees hired after July 1, 2015, are required to contribute 6% of annual earnings.

See Independent Auditor's Report

3. Changes in Assumptions

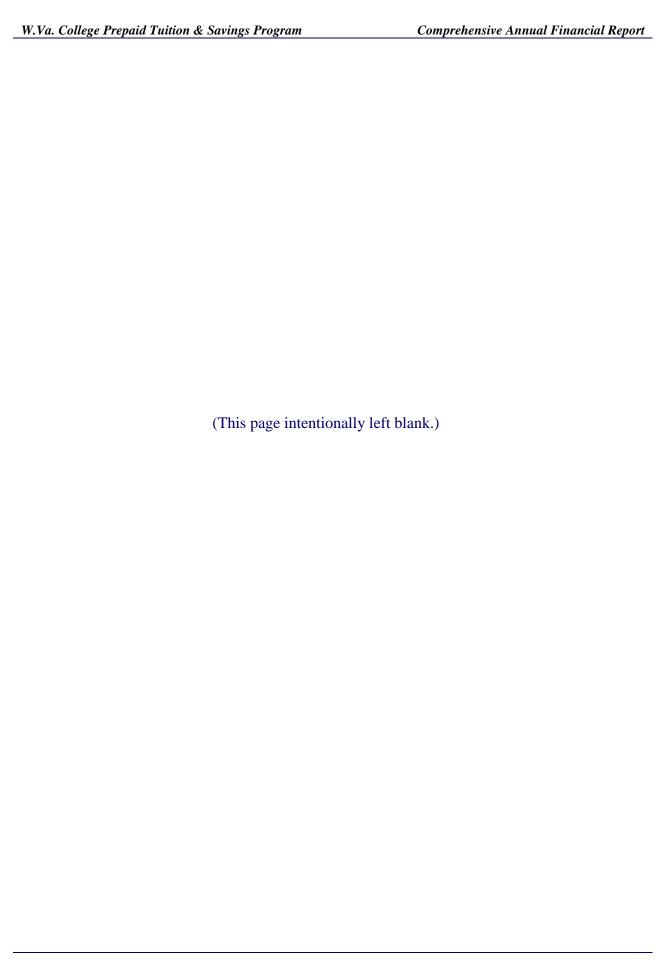

An experience study, which was based on the years 2009 through 2014, was completed prior to the 2015 actuarial valuation. As a result, several assumptions were changed for the actuarial valuation for the year ending June 30, 2015 as follows:

| | 2015 | 2014 |
|-----------------------------|--------------------------|----------------------------|
| Projected salary increases: | | |
| State | 3.0 - 4.6% | 4.25 - 6.0% |
| Nonstate | 3.35 - 6.0% | 4.25 - 6.0% |
| Inflation rate | 1.9% | 2.2% |
| Mortality rates: | | |
| Healthy males | 110% of RP-2000 Non- | 1983 GAM male |
| | Annuitant, Scale AA | |
| Healthy females | 101% of RP-2000 Non- | 1971 GAM female, set back |
| | Annuitant, Scale AA | 1 year |
| Disabled males | 96% of RP-2000 Disabled | 1971 GAM male, set forward |
| | Annuitant, Scale AA | 8 years |
| Disabled females | 107% of RP-2000 Disabled | Revenue Ruling 96-7 |
| | Annuitant, Scale AA | disabled female table |
| Withdrawal rates: | | |
| State | 1.75 - 35.1% | 1.0 - 26.0% |
| Nonstate | 2.0 - 35.8% | 2.0 - 31.2% |
| Disability rates | 0.0 - 0.675% | 0.0 - 0.8% |

Supplemental Information

The following information is presented for the purpose of additional analysis and is not a required part of the financial statements of the Program. This section shows financial information of each investment portfolio and individual fund of the Savings Plan, which is a fiduciary fund of the Program.

Statistical Section

The Statistical Section presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and supplemental information says about the Program's overall financial health. The following two categories of information provide tables of schedules and other information to better understand the Program and its operations.

Financial Trends – Tables 1 & 2

These tables contain trend data to help the reader understand how the Program's financial performance and well-being have changed over time.

Demographic and Economic Information – Tables 3 – 10

These tables offer demographic and economic indicators to help the reader understand the environment within which the Program's financial activities take place.

Informational Tables and Charts

<u>Table 1: Net (Deficit) Position and Changes in Net (Deficit) Position – Enterprise Funds</u>

The enterprise funds began operations in July 1997. Activity during the first year of operations consisted of appropriations from the state and start-up costs. Activity in the ensuing years included revenues from contracts and investments, and expenses related to the tuition benefit liability. Revenue from the Savings Plan administrative fee began with the Savings Plan's first full year of operations in 2004. Tuition contract revenues went down in 2004 because the Prepaid Tuition Plan was closed to new contract sales during that fiscal year after an abbreviated enrollment period.

Table 3: Types of Prepaid Tuition Plan Contracts

Contracts are held in units, which represent a semester of college studies. The chart illustrates the number of contracts with units remaining to be used as of June 30, 2016.

Purchasers chose either to make a lump sum payment for a contract or to select among monthly payment options.

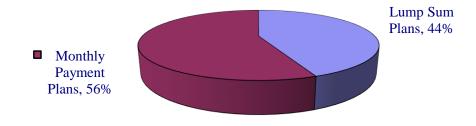

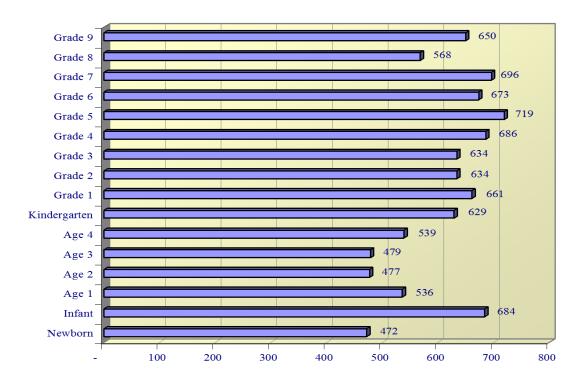

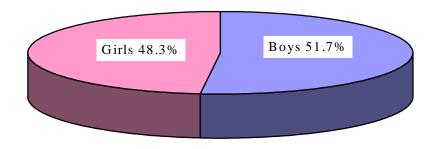

Table 4: Prepaid Tuition Plan Beneficiaries

Purchasers selected plans based on beneficiary age and grade during the enrollment period. This chart shows the distribution of plans by age and grade at the time of contract purchase.

Beneficiary distribution by gender
